9. The Commonwealth Department of Education and Training (the Department) (or a consultant engaged by the Department) will work with affected students to identify a replacement course and arrange for students to be placed with replacement providers.
10. Replacement courses must meet the following requirements:
 - the course must lead to the same or comparable qualification as the original course;
 - the mode of delivery of the replacement course must be the same as or, with the student's consent, similar to the mode of delivery for the original course;
 - the location of the replacement course must be reasonable, having regard to the costs of, and the time required for, a student's travel; and
 - the student will not incur additional fees that are unreasonable and will be able to attend the replacement course without unreasonable impacts on the student's prior commitments.
11. Affected students will be offered a replacement course and may seek a review about whether the course offered to them meets the requirements for replacement courses.
12. A student who accepts the replacement course offered will not be required to pay the replacement provider for the replacement components of the replacement course. However, the fees payable for the remainder of the replacement course may be different from the fees payable for the original course.
13. A student who accepts the replacement course offered will also receive course credits for parts of the original course successfully completed by the student, as evidenced by:
 - a copy of a statement of attainment or other Australian Qualifications Framework certification document issued by the course provider or an authorised issuing organisation in accordance with the Australian Qualifications Framework; or
 - a copy of an authenticated VET transcript issued by the Student Identifiers registrar.
14. Each affected student will have a period of six (6) months in which to accept the replacement course offer. The Department may extend that period in circumstances that justify an extension.
15. If an affected student enrolls in a course that is not a replacement course, the student may be required to pay additional tuition fees, and might not receive the course credits the student would have received if the student had enrolled in a replacement course.
